Data and replication files

Youth Bulges and Civil Conflict:
Causal Evidence from Sub-Saharan Africa

Replication Code

- YouthBulgeCountryLevel.do contains the Stata code with which the country- evel regression results can be replicated (Tables 1–4 and S1.1–S1.12 as well as Figures S1.1–S1.2).

- YouthBulgeRegionalLevel.do contains the Stata code with which the regional level regression results can be replicated (Table 5 and S2.1).

Data sets

Two datasets are used in the empirical analysis:

- **YouthBulgeCountryLevel.dta**: Country level dataset.
- **YouthBulgeRegionalLevel.dta**: Regional level dataset.
