

eTable 1. Overview of the measurements used for the secondary analyses from the pre-dialysis, dialysis, and transplant waitlist study cohorts

Variables	Pre-dialysis	Dialysis	Transplant waitlist
Interest in LDKT	On a scale of 0-10, how interested do you think you would be in getting a kidney from your family member?	On a scale of 0-10, how interested do you think you would be in getting a kidney from your family member?	On a scale of 0-10, how interested do you think you would be in getting a kidney from your family member?
Pursuit of LDKT	Pursuit of LDKT for the pre-dialysis and dialysis cohorts was assessed by participants self-reported achievement of at least one of five behaviors necessary to complete LDKT, including 1) discussion of living donor kidney transplantation with family members or friends, (2) discussion of living donor kidney transplantation with their physician, (3) initiation of the clinical evaluation for potential LDKT recipients, (4) completion of the clinical evaluation for potential LDKT recipients, and (5) identification of a potential live kidney donor.	Pursuit of LDKT for the pre-dialysis and dialysis cohorts was assessed by participants self-reported achievement of at least one of five behaviors necessary to complete LDKT, including 1) discussion of living donor kidney transplantation with family members or friends, (2) discussion of living donor kidney transplantation with their physician, (3) initiation of the clinical evaluation for potential LDKT recipients, (4) completion of the clinical evaluation for potential LDKT recipients, and (5) identification of a potential live kidney donor.	Pursuit of LDKT for participants in the transplant waitlist cohort was assessed by self-reported achievement of at least one of two behaviors: (1) discussion of living donor kidney transplantation with family members or friends, or (2) identification of a potential live kidney donor.
LDKT Knowledge	Participants' factual knowledge was assessed using 10 true or false questions	Participants' factual knowledge was assessed using 10 true or false questions	Participants' factual knowledge was assessed using 10 true or false questions
Health Literacy	Health literacy was measured using the Rapid Estimate of Adult Literacy in Medicine (REALM) test ^[15] (66 items) in the pre-dialysis and dialysis cohorts.	Health literacy was measured using the Rapid Estimate of Adult Literacy in Medicine (REALM) test ^[15] (66 items) in the pre-dialysis and dialysis cohorts.	The Rapid Estimate of Adult Literacy in Medicine—Short Form (REALM-SF) ^[16] (7 items) was used to assess literacy in the transplant waitlist cohort.
Trust in Medical Care	Trust in medical care was explored using 12 questions derived from the Trust in Physician Scale, ^[17] Medical Distrust Index ^[18] , and Healthcare Discrimination survey. ^[19]	Trust in medical care was explored using 12 questions derived from the Trust in Physician Scale, ^[17] Medical Distrust Index ^[18] , and Healthcare Discrimination survey. ^[19]	Trust in medical care was explored using 12 questions derived from the Trust in Physician Scale, ^[17] Medical Distrust Index ^[18] , and Healthcare Discrimination survey. ^[19]

LDKT, living donor kidney transplant

eTable 2. Characteristics of Outcome and Exposure Variables

	Pre-dialysis	Dialysis	Transplant waitlist
n	62	92	155
Interest in living kidney donation, median [IQR]	9 [5-10]	10 [5-10]	10 [7-10]
Interest in living donation categories			
Don't know	2 (3.23)	0 (0)	0 (0)
Interest < 8	21 (33.87)	30 (32.61)	40 (25.81)
Interest ≥ 8	39 (62.9)	62 (67.39)	115 (74.19)
Pursuit			
Action	28 (45.16)	67 (72.83)	143(92.0)
No pursuit	34 (54.84)	25 (27.17)	12(8.0)
Knowledge, median [IQR]	80 [60-80]	70 [70-80]	80 [70-80]
Realm score, median [IQR]	65 [45-66]	62 [57-65]	7 [6-7]
Realm categories			
≤ 3 rd grade: 0-18; 0	5 (8.06)	0 (0)	8 (5.16)
4 th to 6 th grade: 18-44; 1-3	7 (11.29)	9 (9.78)	3 (1.94)
7 th to 8 th grade: 45-60 ;4-6	7 (11.29)	27 (29.35)	44 (28.39)
≥ 9 th grade: 61-66; 7	36 (58.06)	46 (50.0)	81 (52.26)

Note: Data are presented as median (interquartile range) or number (percentage).
