†For Lung Foundation Australia, we included drugs for COPD, lung cancer, rare lung cancer as these are the three main conditions listed in the “Patient support” area of the organisation’s website. (<https://lungfoundation.com.au/patient-support/> Accessed in March 2018)

‡For Rare cancers, we included all cancer drugs except those for breast, prostate, bowel, lung and melanoma as these are listed on the website of the health consumer organisation as common cancers and therefore not the focus of the work of the group.
