

Online Supplementary Figures

Online Supplementary Figure 1. The Mediation Relationship of Self-management between Satisfaction with Social Support and BMI of African Americans with T2D Based on Regression Analyses

Online Supplementary Figure 2. The Mediational Relationship of Self-management between Functional Social Support and Depression of African Americans with T2D Based on Regression Analyses

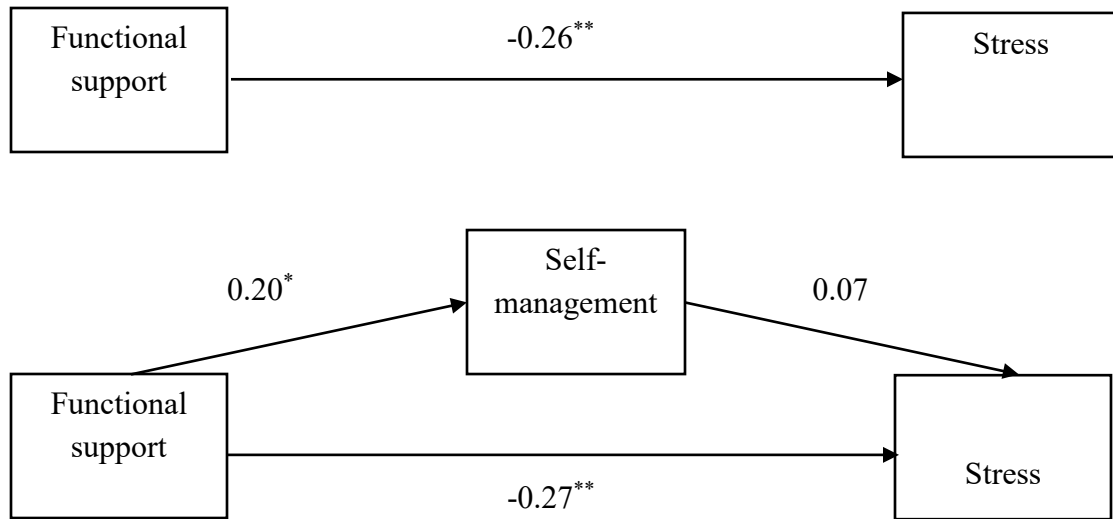

*Standardized Coefficients ($p < 0.05$)

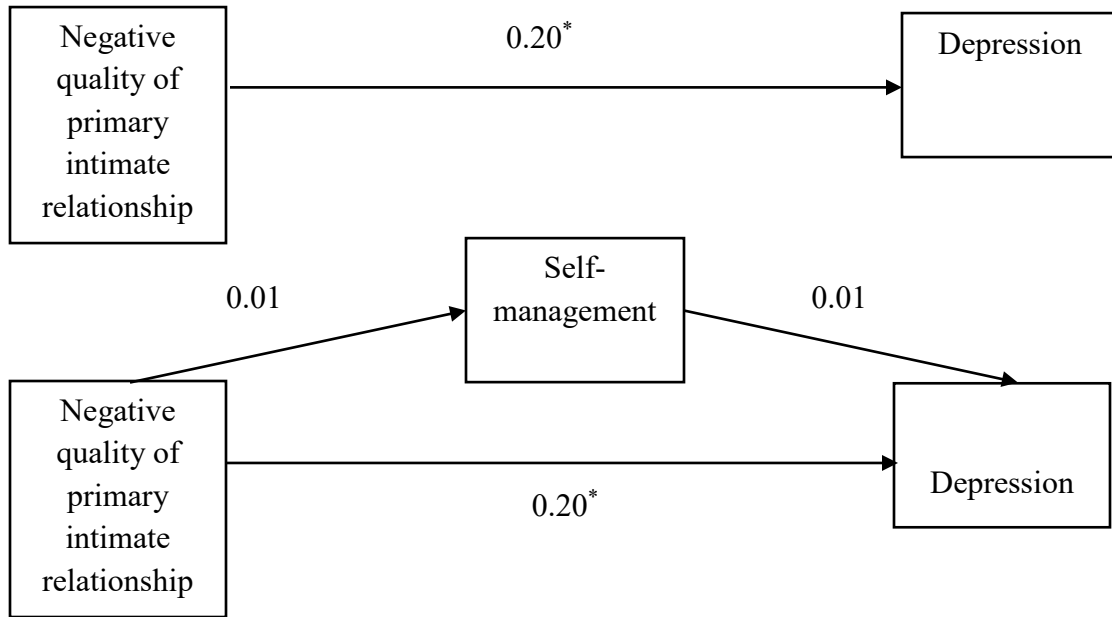

**Standardized Coefficients ($p < 0.01$)

***Standardized Coefficients ($p < 0.001$)

Online Supplementary Figure 3. The Meditational Relationship of Self-management between Functional Social Support and Stress of African Americans with T2D Based on Regression Analyses

Online Supplementary Figure 4. The Meditational Relationship of Self-management between Negative Quality of Primary Intimate Relationship and Depression of African Americans with T2D Based on Regression Analyses

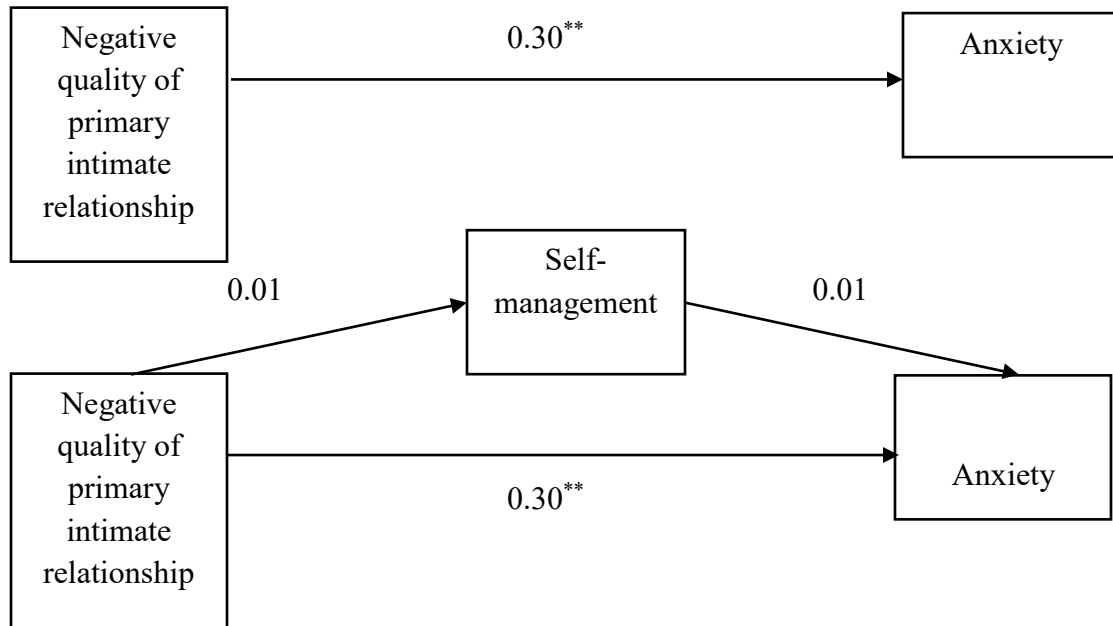

*Standardized Coefficients ($p < 0.05$)

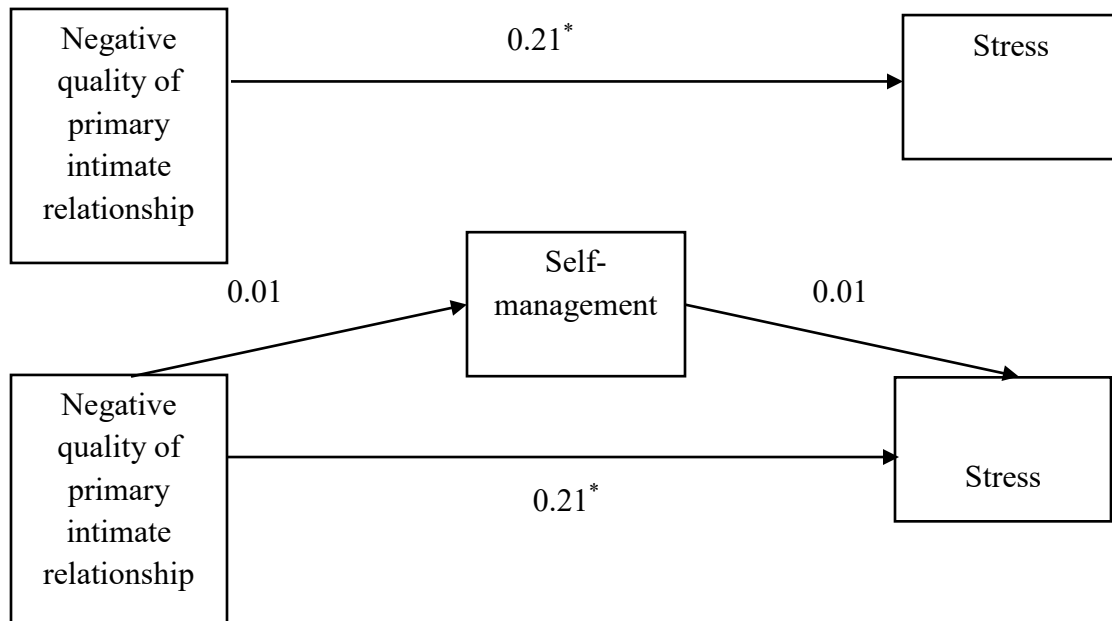

**Standardized Coefficients ($p < 0.01$)

***Standardized Coefficients ($p < 0.001$)

Online Supplementary Figure 5. The Meditational Relationship of Self-management between Negative Quality of Primary Intimate Relationship and Anxiety of African Americans with T2D Based on Regression Analyses

Online Supplementary Figure 6. The Meditational Relationship of Self-management between Negative Quality of Primary Intimate Relationship and Stress of African Americans with T2D Based on Regression Analyses

*Standardized Coefficients ($p < 0.05$)

**Standardized Coefficients ($p < 0.01$)

***Standardized Coefficients ($p < 0.001$)
