Note: “Approach” refers to the type of study design: Descr. = descriptive; Train. = training; Interv. = intervention; Valid. = validation.
“Method” refers to the type of data collection and analysis: Quant. = quantitative; Qual. = qualitative; Mixed = mixed methods.
“Teamwork processes” refers to the types of teamwork processes: Trans. = transition; Action = action; Interpers. = interpersonal.
“Content areas” refers to teamwork-related content areas: Comm. = communication; Collab. = collaboration.
