Mr. Zeng serves as a member of the Science and Technology Planning Project of Guangdong Province (Grant Number 2017B090913005). In the process of analyzing the influence of NC machining system on surface quality of machined surface, he gave me some helpful advices which allowed me to illustrate the experiment results in a more scientific way. He also gave much help in financial support for this project. Thus, I believe we should add him to the co-author list.
