

Supplementary tables for the manuscript titled “Study of awareness and practice of informed consent process among clinical trial participants and their motives behind participation”

Supplementary Table 1: Number of clinical trials in which the volunteers had participated

No. Of Clinical Trials	N	%
1 to 3	226	56.5
4 to 6	152	38.0
7 to 9	12	3.0
≥10	10	3.5
Total	400	100.0

Supplementary Table 2: Level of awareness about clinical trials among the study participants

Level of awareness about clinical trials			
Awareness About Clinical Trial	Number of ICD Contents Volunteer Enumerated by volunteers	Frequency	percent
Poor awareness	0-4	216	54.0
Average awareness	5-8	173	43.2
Good awareness	9-13	11	2.8
Total		400	100.0

Supplementary Table 3: Mode of informed consent presentation done in earlier studies and suggested way of presentation of Informed Consent

Mode Of Providing Information In Informed Consent Process	Mode of Information In ICP in Earlier Studies		Mode of Presentation of Information During ICP as suggested by the volunteers	
	N	%	N	%
Verbal	8	2.0	22	5.5
Written copy given	22	5.5	10	2.5
Video	0	0.0	60	15.0
Verbal and video both	0	0.0	10	2.5
Verbal and written copy both	366	92.3	90	22.5
All of them	0	0.0	208	52.0
Total	396	100.0	400	100.0

Supplementary Table 4: Interval between two consecutive studies the volunteer participated vs awareness of ideal minimum gap between two studies

Duration Between Two Studies for Participation in Clinical Trials	Minimum Duration of Interval Between Two Studies Volunteer had participated		Ideal Minimum Duration of Interval Between two Clinical Trials	
	N	%	n	%
Less than 12 weeks	160	40.0	0	0
12 weeks to One Year	232	58.0	398	99.5
More than One year	8	2.0	2	0.5
Total	400	100.0	400	100.0
