

List of figure captions:

Fig.1	Experimental schematic
Fig.2	Experimental device
Fig.3	Poppet structure
Fig.4	Poppet valve structure
Fig.5	The air bubble in the pressure measures cavity of the poppet valve with orifice
Fig.6	Displacement and pressure
Fig.6	Displacement and pressure (part)
Fig.7	Poppet instability vibration in one cycle (0T)
Fig.7	Poppet instability vibration in one cycle (0.16T)
Fig.7	Poppet instability vibration in one cycle (0.33T)
Fig.7	Poppet instability vibration in one cycle (0.5T)
Fig.7	Poppet instability vibration in one cycle (0.66T)
Fig.7	Poppet instability vibration in one cycle (0.83T)
Fig.7	Poppet instability vibration in one cycle (1T)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=3.13ms)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=3.3ms)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=3.46ms)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=3.63ms)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=3.8ms)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=3.96ms)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=4.13ms)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=4.3ms)
Fig.8	Micro bubbles motion in the pressure-measuring orifice (t=4.46ms)
Fig.9	N-S21-B10-1.4 Displacement and pressure
Fig.10	N-S21-B10-1.6 Displacement and pressure
Fig.11	N-S21-B10-1.6 Valve cavitation region t=0
Fig.11	N-S21-B10-1.6 Valve cavitation region t=1ms
Fig.11	N-S21-B10-1.6 Valve cavitation region t=1.8ms
Fig.11	N-S21-B10-1.6 Valve cavitation region t=2.5ms
Fig.11	N-S21-B10-1.6 Valve cavitation region t=2.8ms
Fig.11	N-S21-B10-1.6 Valve cavitation region t=3.8ms
Fig.12	N-S21-B10-1.6 poppet valve lift cavitation t=0ms
Fig.12	N-S21-B10-1.6 poppet valve lift cavitation t=4.2ms
Fig.12	N-S21-B10-1.6 poppet valve lift cavitation t=7.8ms
Fig.12	N-S21-B10-1.6 poppet valve lift cavitation t=11.3ms
Fig.12	N-S21-B10-1.6 poppet valve lift cavitation t=15.3ms
Fig.12	N-S21-B10-1.6 poppet valve lift cavitation t=19.2ms
Fig.13	N-S21-B-1.0 bubble change process at valve port t=0.5ms
Fig.13	N-S21-B-1.0 bubble change process at valve port t=0ms
Fig.13	N-S21-B-1.0 bubble change process at valve port t=1.0ms
Fig.13	N-S21-B-1.0 bubble change process at valve port t=1.5ms

- Fig.13 N-S21-B-1.0 bubble change process at valve port $t=2.0\text{ms}$
- Fig.13 N-S21-B-1.0 bubble change process at valve port $t=2.8\text{ms}$
- Fig.13 N-S21-B-1.0 bubble change process at valve port $t=3.5\text{ms}$
- Fig.13 N-S21-B-1.0 bubble change process at valve port $t=3.8\text{ms}$
