Supporting Information

Table A.1

Pearson Correlations, Means (M), and Standard Deviations (SD) for Variables of Interest (Outliers Reduced/Removed and Log Transformed; N = 189-198)

Measures	1	2	3	4
1. Evaluative attitudes	-			
2. Injunctive peer norms	.90	-		
3. Past sexual aggression	.62	.48	-	
4. Likelihood of sexual aggression	.97	.85	.70	-
M (SD)				

Note. All Pearson correlations were statistically significant ($p < .01$).

Table A.2

Spearman Rho Correlations, Means (M), and Standard Deviations (SD) for Variables of Interest (Full Sample; N = 200)

Measures	1	2	3	4
1. Evaluative attitudes	-			
2. Injunctive peer norms	.73	-		
3. Past sexual aggression	.50	.46	-	
4. Likelihood of sexual aggression	.79	.68	.55	-
M (SD)	1.19 (0.50)	1.29 (0.58)	21.28 (81.94)	1.17 (0.49)

Note. All Spearman Rho correlations were statistically significant ($p < .01$).
